

D.: 29th June 2022

Advertisement for the post of a Project Associate I in Chromosome Biology

Applications are invited from the candidates with excellent academic records and relevant research experience for the DBT-sponsored project at the Department of Biotechnology, IIT Hyderabad.

Title of the research project	Elucidating the role of chromatin remodelers in yeast meiosis, especially in meiotic recombination, chromosome segregation and transcription of meiosis-specific genes
Description of the job	Experimental work pertaining to yeast genetics, advanced microscopy, cell and molecular biology, biochemistry, and microscopy data analysis
Duration of the position	2 years
Remuneration	Rs. 31,000 + 24% HRA per month
Eligibility	M.Tech/M.E./M.Sc./B.Tech/B.E. in Biotechnology with CGPA>8 (>80%) *GATE or other fellowships are not mandatory. *Candidates with prior research experience in yeast genetics, microscopy, and data analysis will be preferred.
Age Limit	35 years
How to apply?	Eligible candidates should send CV and cover letter to gunjanmehta@bt.iith.ac.in on or before 15th July 2022 .
Selection procedure	Candidates will be short-listed for the interview based on their academic records and relevant work experience. Only short-listed candidates will be intimated via email for the online interview by 18 th July 2022. Please note that merely meeting the eligibility criteria does not guarantee a call for an interview. The PI reserve the right to leave the position vacant if no suitable candidate is found.
